Water (Water)	4	/ 7732-18-5

4. FIRST-AID MEASURES

In Case of Inhalation

: Take victim to a place of fresh air and keep at rest in a position comfortable for breathing.

In Case of Skin Contact

: Wash with plenty of soap and water.
Take off contaminated clothing and wash before reuse.

In Case of Eye Contact

: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Get medical advice / attention if eye irritation persists.

In Case of Ingestion

: Rinse mouth with water, and provide 1-2 cups of water or milk to drink.
Get immediate medical advice / attention.
In the event that the victim is not conscious, do not feed anything through the mouth.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

: Powder, alcohol-resistant form, carbon dioxide, sand, water spray.

Not Suitable Extinguishing Media

: No data available

Special Hazards

: During a fire, toxic gases (e.g., carbon monoxide, nitrogen oxide etc) may be generated. Avoid inhaling smoke during fire extinguishing.

Special Methods

: Remove all combustible objects away from the fire and use adequate extinguishing media. Preferably extinguish the fire from the same direction of the wind. Evacuate personnel not involved in fire extinguishing to safe area. Equipment and machinery in proximity of fire must be sprayed with water to cool. Water used to extinguish a fire should not be allowed to enter the drainage system or water courses.

Special Protective Action for Fire-Fighters

: Use goggles in combination with dust mask. During a fire, toxic gases (e.g., carbon monoxide, nitrogen oxide etc) may be generated. Avoid inhaling smoke during fire extinguishing.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedure
Environmental Precautions

: Use goggles and protective gloves. In case of large spills, remove person to safety. Ensure adequate ventilation.
: Do not discharge into river or sewer.

Methods and Materials for Contaminment and Cleaning Up

: In case of a small spill, absorb with liquid-binding material (sand, soil, cloth) and wipe away the remains with cloth or fabric. Flush surroundings with large amounts of water. In case of a large spill, surround it with the mound of sand or soil to prevent elution and collect into drums or other containers.

Prevention of Secondary Hazards

: Promptly remove all combustible objects away from the spill and prepare fire extinguishing media. The spills on the floor must be cleaned promptly, otherwise they present a risk of traumatic accident. Avoid walking or stepping on the spills. While cleaning the spill use adequate tools that do not promote sparks of fire.
