## SAFETY DATA SHEET

### 1. PRODUCT AND COMPANY IDENTIFICATION

|                                         |                                                                     |
|-----------------------------------------|---------------------------------------------------------------------|
| Product Name                            | : NIKKOL BL-21                                                      |
| Company                                 | : NIPPON SURFACTANT INDUSTRIES CO., LTD.                            |
| Address                                 | : 7-14 Hiraide Kogyo Danchi Utsunomiya, Tochigi 321-0905, JAP<br>AN |
| Division                                | : Quality Assurance Division                                        |
| Tel. No.                                | : 028-661-6121                                                      |
| Fax No.                                 | : 028-663-0426                                                      |
| E-Mail address                          | : info-sds@nikkolgroup.com                                          |
| Emergency tel. No.                      | : NIKKO CHEMICALS CO., LTD.+81-3-3661-1677                          |
| Recommended use and restrictions on use | :                                                                   |

### 2. HAZARDS IDENTIFICATION

#### GHS Classification

|                                                                |                               |
|----------------------------------------------------------------|-------------------------------|
| Physical and Chemical Hazards                                  | : Not classified              |
| Health Hazards                                                 |                               |
| Acute Toxicity (Oral)                                          | : Not classified              |
| Acute Toxicity (Dermal)                                        | : Not classified              |
| Acute Toxicity<br>(Inhalation : gases)                         | : Not classified              |
| Acute Toxicity<br>(Inhalation : vapors)                        | : Classification not possible |
| Acute Toxicity<br>(Inhalation : dust, mists)                   | : Classification not possible |
| Skin Corrosion / Irritation                                    | : CATEGORY 2                  |
| Serious Eye Damage / Eye Irritation                            | : CATEGORY 1                  |
| Respiratory Sensitization                                      | : Classification not possible |
| Skin Sensitization                                             | : Not classified              |
| Germ Cell Mutagenicity                                         | : Not classified              |
| Carcinogenicity                                                | : Not classified              |
| Reproductive Toxicity                                          | : Not classified              |
| Specific Target Organ Systemic<br>Toxicity (Single Exposure)   | : Classification not possible |
| Specific Target Organ Systemic<br>Toxicity (Repeated Exposure) | : Classification not possible |
| Aspiration Hazard                                              | : Classification not possible |
| Environmental Hazards                                          |                               |
| Short-term (acute) hazardous to<br>the aquatic environment     | : CATEGORY 2                  |
| Long-term (chronic) hazardous to<br>the aquatic environment    | : Not classified              |
| Hazardous to The Ozone Layer                                   | : Classification not possible |

#### GHS Label Elements

Pictograms or Symbols

:

Signal Word

: Danger

Hazard Statements

: 【H315】 Causes skin irritation  
 【H318】 Causes serious eye damage  
 【H401】 Toxic to aquatic life

Precautionary Statements

【Prevention】

: 【P264】 Wash thoroughly after handling.  
 【P280】 Wear protective gloves / protective clothing / eye protection / face protection.  
 【P273】 Avoid release to the environment.

【Response】

: 【P301+P312】 IF SWALLOWED: Call a doctor / physician if you feel unwell.  
 【P302+P352】 IF ON SKIN: Wash with plenty of soap and water.  
 【P362】 Take off contaminated clothing and wash before reuse.  
 【P332+P313】 If skin irritation occurs: Get medical advice / attention.  
 【P305+P351+P338】 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 【P310】 Immediately call a doctor / physician.

【Storage】

: 【P404】 Store in a closed container.

【Disposal】

: 【P501】 Dispose of contents/container in accordance with local/regional/national/international regulation(to be specified).

【Safe Handling Advice】

: 【N00-010】 Refer to SDS

### 3. COMPOSITION / INFORMATION ON INGREDIENTS

Substance or Mixture

: Substance

Ingredients and Concentration Range

:

Ingredient (INCI Name)

concentration(%)

/ CAS RN®

POE(21)Lauryl Ether  
 (Laureth-21)

100

/ 9002-92-0

### 4. FIRST-AID MEASURES

In Case of Inhalation

: Take victim to a place of fresh air and keep at rest in a position comfortable for breathing.

In Case of Skin Contact

: Wash with plenty of soap and water.  
 Take off contaminated clothing and wash before reuse.

In Case of Eye Contact

: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 Get medical advice / attention if eye irritation persists.

In Case of Ingestion

: Rinse mouth with water, and provide 1-2 cups of water or milk to drink.

Get immediate medical advice / attention.

In the event that the victim is not conscious, do not feed anything through the mouth.

## 5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

: Powder, alcohol-resistant form, carbon dioxide, sand, water spray.

Not Suitable Extinguishing Media

: No data available

Special Hazards

: During a fire, toxic gases (e.g., carbon monoxide, nitrogen oxide etc) may be generated. Avoid inhaling smoke during fire extinguishing.

Special Methods

: Remove all combustible objects away from the fire and use adequate extinguishing media. Preferably extinguish the fire from the same direction of the wind. Evacuate personnel not involved in fire extinguishing to safe area. Equipment and machinery in proximity of fire must be sprayed with water to cool. Water used to extinguish a fire should not be allowed to enter the drainage system or water courses.

Special Protective Action for Fire-Fighters

: Use goggles in combination with dust mask. During a fire, toxic gases (e.g., carbon monoxide, nitrogen oxide etc) may be generated. Avoid inhaling smoke during fire extinguishing.

## 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedure

: Use goggles and protective gloves. In case of large spills, remove person to safety. Ensure adequate ventilation.

Environmental Precautions

: Do not discharge into river or sewer.

Methods and Materials for Containment and Cleaning Up

: In case of a small spill, absorb with liquid-binding material (sand, soil, cloth) and wipe away the remains with cloth or fabric. Flush surroundings with large amounts of water. In case of a large spill, surround it with the mound of sand or soil to prevent elution and collect into drums or other containers.

Prevention of Secondary Hazards

: Promptly remove all combustible objects away from the spill and prepare fire extinguishing media. The spills on the floor must be cleaned promptly, otherwise they present a risk of traumatic accident. Avoid walking or stepping on the spills. While cleaning the spill use adequate tools that do not promote sparks of fire.

## 7. HANDLING AND STORAGE

Handling

Technical Measures

: The shower with water (for washing of eyes and body) must be installed near the handling facility.

Contact Avoidance

: Keep away from source of ignition.

Safe Handling Advice

: Use adequate ventilation. Use goggles and protective gloves. Wash thoroughly after handling.

Storage

Suitable Storage Conditions

: Store in a well-ventilated place. Keep cool.

Safe Packaging Materials

: No information available

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters

|                          |                                                                                                                                                                                                    |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ACGIH                    | : Not established (2008)                                                                                                                                                                           |
| Engineering Measures     | : Exhaust system must be installed in case steam, fume or mist is generated at the operation facility. Shower with water (for washing eyes and body) must be installed near the handling facility. |
| Protective Equipment     |                                                                                                                                                                                                    |
| Respiratory Protection   | : Not needed in case of standard handling.                                                                                                                                                         |
| Hand Protection          | : Impermeable protective gloves.                                                                                                                                                                   |
| Eye/Face Protection      | : Goggles or protective glasses with side protectors.                                                                                                                                              |
| Skin and Body Protection | : Workwear with long sleeves.                                                                                                                                                                      |
| Special Precautions      | : No data available                                                                                                                                                                                |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                                          |                                                |
|----------------------------------------------------------|------------------------------------------------|
| Physical State                                           | : Solid                                        |
| Color                                                    | : White to pale yellow                         |
| Odor                                                     | : Characteristic odor                          |
| Melting Point / Congealing point                         | : Congealing point : 32~37°C                   |
| Boiling Point or initial boiling point and boiling range | : No data                                      |
| Flammability                                             | : No data                                      |
| Lower and Upper explosion limit / Flammability Limits    | : Upper Limit : No data, Lower Limit : No data |
| Flash Point                                              | : No data                                      |
| Auto-Ignition Temperature                                | : No data                                      |
| Decomposition Temperature                                | : No data                                      |
| pH                                                       | : 4.5~6.5(5% aq.sol.)                          |
| Kinematic Viscosity                                      | : No data                                      |
| Solubility                                               | : Soluble                                      |
| Partition Coefficient : n-Octanol / Water                | : No data                                      |
| Vapour Pressure                                          | : No data                                      |
| Density and/or Relative Density                          | : 1.04(50°C)(Reference)                        |
| Relative Vapour Density                                  | : No data                                      |
| Particle Characteristics                                 | :                                              |
| Other Data                                               | : No data                                      |

## 10. STABILITY AND REACTIVITY

|                                    |                                      |
|------------------------------------|--------------------------------------|
| Reactivity                         | : Stable in general.                 |
| Chemical Stability                 | : Stable in general.                 |
| Possibility of Hazardous Reactions | : No data available                  |
| Condition to Avoid                 | : No data available                  |
| Incompatible Materials             | : No Data                            |
| Hazardous Decomposition Products   | : Carbon monoxide, Nitrogen compound |

## 11. TOXICOLOGICAL INFORMATION

|                                           |                                                                                                                         |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Acute Toxicity (oral)                     | : ①LD50,Rat,1.19±0.146mL/Kg ②LD50,Mouse,3.05±0.48mL/Kg<br>③LD50,Mouse,>1.5mL/Kg(Reference : BL-9EX(POE(9)Lauryl Ether)) |
| Acute Toxicity (dermal)                   | : No data                                                                                                               |
| Acute Toxicity (Inhalation : gases)       | : No data                                                                                                               |
| Acute Toxicity (Inhalation : vapors)      | : No data                                                                                                               |
| Acute Toxicity (Inhalation : dust, mists) | : No data                                                                                                               |

|                                                             |                                                                                                                                                                                  |
|-------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Skin Corrosion / Irritation                                 | : ①rabbit、15、20%、slight irritant(intact skin),moderate irritant(abraded skin) ②canine、100%、5ml、cervical and vaginal mucosa,non irritant(Refarece : BL-9EX(POE (9) Lauryl Ether)) |
| Serious Eye Damage / Irritation                             | : 20% slight irritant(Refarece : BL-9EX(POE (9) Lauryl Ether))                                                                                                                   |

## 12. ECOLOGICAL INFORMATION

|                              |                                                               |
|------------------------------|---------------------------------------------------------------|
| Ecotoxicity                  | : Pseudokirchneriella subcapitata,48hr,EC50 : 2,000~4,000μg/L |
| Persistence / Degradability  | : Ready biodegradability,OECD301C,28days,BOD 74%(C12EO40)     |
| Bioaccumulative Potential    | : No data                                                     |
| Mobility in Soil             | : No data                                                     |
| Hazardous to The Ozone Layer | : No data                                                     |

## 13. DISPOSAL CONSIDERATIONS

Either incinerate in small quantities in the incinerator or entrust to a specialized waste disposal contractor licensed by the prefectural governor.
